KS-133 Class Change

Unfortunately the KS-133—Exercise Design for Operations-Based training that was scheduled in Wichita, in July had to be cancelled due to low enrollments and instructor schedule conflicts. A new KS-133 session has been scheduled in November (see above). While this session is open for everyone that has completed prerequisites, registration priority has been granted for those that were previously registered in July. Please register and contact us if you have any concerns.
